

PAIR SKATING DAYS 2025

International Development Training Camp and Seminar

supported

by the ISU Development Commission

Zell/See

30.06.-06.07.2025

We would like to invite you to take part in the Pair Skating Days 2025 in the beautiful region of Zell/See in the alps.

What sets this seminar apart from other pair seminars is the combination of technical content, as well as artistic and nutrition aspects for athletes and their coaches combined with the specific preparation of officials for higher qualifications as they enter their last study phase before taking exams.

Through working together and exchanging ideas and opinions on certain elements it gives the officials the opportunity to get involved in the teams' element development process while gaining more knowledge about the practical training process which will help them in their work with pair skating teams in their member federations as well as for their work on the panels.

It is the seminar's goal to promote team work and a fruitful learning environment for all participants.

Project partners

Austrian Olympic Committee

Austrian Sports (Österreichische Bundessport-GmbH)

Content

Athletes have a chance to receive valuable technical and artistic input as well as feedback on their elements and programs early in the season which they can implement in their work at home.

Sessions will include

- * On- and Off-Ice Technical sessions and Skating Skills for pairs with competition experience and their coaches
- * On-ice skating skills and artistic expression
- * Off-Ice ice dance classes focusing on partner movements, oneness and unison
- * Level Check of elements
- * Monitoring event with feedback from the Technical Panel and ISU judges on technical elements and Program Components
- * Session on nutrition for athletes and coaches. Different needs according to athletes age and development phase with the specific aspects of different phases throughout the season (competition season and off-season).
- * Seminar sessions for coaches and athletes on Levels and Program Components

Especially officials (TS, TC, judges) from countries that don't have pair teams of their own will be able to connect with experienced professionals and gain deeper insight into the discipline of pair skating.

Sessions will include

- * Seminar on current rules and changes with practical sessions on- and off-ice together with the pair teams
- * Preparation for qualification examinations
- * Level check of teams' elements
- * Monitoring event as practice event including feedback and joint discussion
- * Off-ice lift class + demonstration of lift groups and holds

- * Joint discussion between TS, TC, coaches and skaters (Junior and Senior Level) about levels of difficulty with examples

Registration

Registration fee is 200 EUR per person

This fee includes all on- and off-ice as well as seminar sessions and lunch and dinner on all practice days.
